About us

Our expert coachbuilding facility in East Kilbride was formed in 1983. Since then there has been continuous and significant investment in this division allowing it to expand and grow to serve its customers.

The facility at East Kilbride can fulfil all types of conversion and body-building requirements, with a vast range of bespoke work and products suitable for all customer enquiries.

From SMEs to those operating large fleets of vehicles, our

team of coachbuilding technicians have over 150 years of combined experience.

We have the capacity to take on any project from any location in the UK and will deliver your finished vehicle, wherever you are in the country. We're fully compliant with type-approved EU legislation and are proud to have been awarded an extension to our current Full European Type Approvals to include the new Ford Transit range. We also have Conformity of Production (CoP) along with ISO 9001.

Custom-made Luton vans and curtain-sided vehicles

Versatile and multi-functional, the Luton's enclosed box with over cab extension comes in a variety of heights, lengths and weights. Our sidepanel options of glass reinforced plastic (GRP), alloy or lightweight honeycomb panels, together with our extensive selection of accessories (see page 16) allows us to tailor your Luton even further.

Our curtain-sided vans offer further flexibility, with reduced vehicle weights, full length access via the vinyl curtains and various rear loading door options available.

Perfect for:

- Removal companies
- Hire drive
- Light haulage up to 7.5 tonnes
- Delivery businesses

Bespoke dropsides and tippers

Popular in alloy, although also available in steel and wood, these bodies can be constructed to order, meeting particular end-user requirements, whether one-off or for large fleets.

Rear- and side-tipping options are available to suit specific requirements. Extended height side capes can be fabricated and fitted to suit.

Perfect for:

- Local authority councils
- Landscapers
- Scrap metal merchants
- All trades

Individual welfare conversions

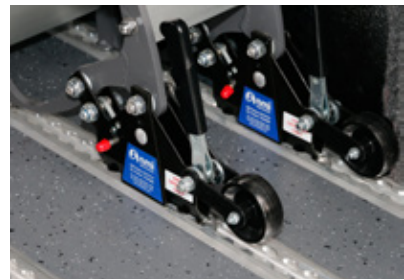

Now an essential part of health and safety regulations, we specialise in providing the very best in comfort and care for your workforce.

Starting as a normal panel van, these are converted to include comfortable seating, tables, instant heating and lighting, a sink with hot and cold running water, fridge, microwave and toilet. All surfaces are coated in Speedliner for easy cleaning if required.

Perfect for:

- Local authority councils
- Highway maintenance
- Construction companies
- All trades

Bespoke minibus and seat conversions

Derived from a panel van, there are various bespoke options available to suit your requirements, for example wheelchair access and fixing, chairlifts, ramps, side access steps and many more.

Perfect for:

- Care homes
- Schools
- NHS trusts
- Local authority councils

Custom-made temperature controlled vehicles

Available in chiller, fridge or freezer options, we provide a variety of vehicles for various functions.

From local authority health boards and blood transfusion services to butchers and fishmongers these vans provide an effective means of storing and transporting a wide variety of chilled or frozen products.

Perfect for:

- Supermarket delivery vehicles
- Butcher vans
- Fishmongers
- Florists
- Pharmacists

Bespoke vehicle and plant transporters

Available in various sizes, our beavertail transporters incorporate a robust lightweight aluminium body with full or open floor. Ramps can be fixed or detachable with under-floor storage to ensure these vehicles are one-man operable. Accessories such as winches, beacons and tool boxes. can be supplied and fitted at your request.

Perfect for:

- Automotive retailers
- Motor racing teams
- Landscapers
- Ground care companies

Accessories

We have an extensive selection of accessories that can be fitted to adapt your vehicle even further.

These include:

- Wood lining (mobile service available)
- Tail lifts
- Tow bars
- Winches
- Roof racks and roof bars
- Beacons and light bars
- Additional interior/ exterior lighting
- VanWeigh overload protection system
- Air management systems
- Roof vents
- Deadlocks
- Security/Toolboxes
- Audio and video equipment
- Advertising boards

Snoeks conversion

We're a premium supplier of Snoeks conversions and can supply and fit double cabins, partition walls and load area protection.

Perfect for:

- Luxury, spacious travel
- Carrying passengers and luggage
- Chauffeur tours and golf trips
- Families with young children

Speedliner, offers protection for van floors, trucks and trailers. It's also available with Kevlar for added strength, and we can colour-match it at no extra cost. It also protects against bacteria, fungi, mildew and moulds which makes it an attractive product for use in health, local authority and registration vehicles.

Perfect for:

- Construction vehicles and equipment
- Catering trucks
- Livestock trailers and ramps
- Ply-lined panel vans
- NHS trusts

Visibility

Make your vehicle stand out with our chevron marking kits and high visibility stripes. These are Department of Transport approved for Traffic Sign Manual regulations.

Perfect for:

- Highway maintenance
- Escort and wide load vehicles
- Local authority commercial vehicles
- Construction companies

Accident repairs

Accident damage and repairs for all body types and conversions, from the single user to large fleet customers. Our on site parts department has extensive stock, and we have a proven relationship with most major insurance companies.

Vehicle refurbishment

- Vehicle wrapping
- Vehicle repainting
- Luton box refurbishment
- Body/Tipper changeovers

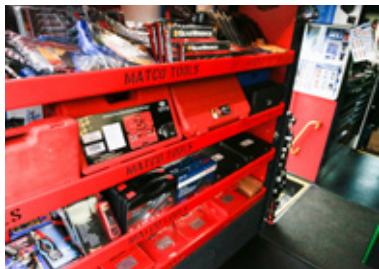

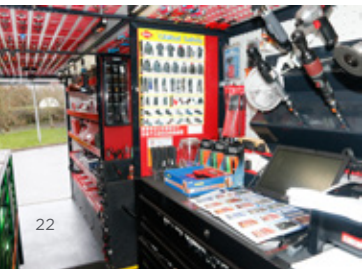

Matco Tools UK

The conversion starts as a bare chassis with the aerodynamic deflector and side collars fitted. The box is then constructed ready for the interior fit out. Rigorous quality control is then undertaken and delivered to the customer.

“From our early days of two 3.5 tonne panel vans through to the 7.5 tonne trucks we use today, Arnold Clark Coachworks has been with us every step of the way, from ideas for fitting out the trucks, through to completing the builds and delivering on time, all in a cost-effective and efficient manner.

Willie and team are always available to discuss ideas, and indeed to help with design and costing of the builds. I would recommend them to anyone in the market for bespoke vehicle fit-outs”

Marcus Rose
Sales and Marketing Manager
Matco Tools UK

Hydrasun

Alloy dropside with hydraulic pipe carrier, constructed so the pipe carrier lowers, to stop end users standing on the vehicle bed for health and safety reasons and ease of use.

“Our recent work with Arnold Clark was aimed at changing the layout of our vehicles with an overall Health and Safety point of view. From the initial design meeting to the delivery of the new vehicles we were thrilled with the service provided.

What we appreciated most was the direct communication to the coachbuilder and their ability to advise us on the best approach as well as delivering the vehicles on time and on budget.”

John Wyllie
Purchasing Manager
